Declassification of FBID Daily Report

REF : Executive Order 10501

1. FBID has had several inquiries as to the classification of old Daily Reports of Foreign Radio Broadcasts. These were classified "Restricted" in view of copyright, libel, and slander considerations.

2. In view of reference Executive Order these "Restricted" Daily Reports of Foreign Radio Broadcasts may be downgraded to unclassified and stamped for "Official Use Only." The copyright, libel, and slander consideration still remains, and therefore the warning box at the bottom of the cover page should not be obliterated.
